JFJV FACT SHEET

# Contracting and Procurement

## Supply the Future and Make History

JGC Fluor BC LNG JV, also known as JFJV, is the engineering, procurement, and construction (EPC) contractor for the LNG Canada Project. Located in Kitimat, British Columbia, construction of the project began in December 2018 and over the next several years, will provide significant opportunities for small, medium, and large businesses.

As the contractor, our goal is to find the best suppliers and contractors available, and provide as many benefits as possible to the local communities and First Nations.

## Register with Us

Businesses interested in contracting and procurement opportunities must first register online. To do so, visit **jfjvkitimat.com/contracts-and-procurement/** and follow the instructions. A list of registered businesses can also be found here.

JFJV will use the information provided to understand the goods and/or services companies are offering. Companies will then be included in the contracting and procurement register and will be contacted when suitable opportunities are identified.

## Business Opportunities for Local Suppliers

We know that some highly specialized jobs can only be done by suppliers from other parts of the country and the world, but there are excellent local and First Nation companies that will be well suited for much of the work.

The pre-qualification process will determine whether a company meets the definition of a local or First Nation company, and subsequently qualifies for the opportunities that go along with that status.

**Our goal is to attract world-class suppliers and contractors, many of which are located here in British Columbia.**

**You can go online at jfjvkitimat.com to register as an interested supplier or contractor.**

JGC | FLUOR BC LNG JV
PRIME CONTRACTOR TO LNG CANADA

**We're dedicated to helping local and First Nation contractors succeed in acquiring work.**

## A Project Everyone Can Be Proud Of

LNG Canada has committed to making this the **Safest Project on Earth**. JFJV shares that vision, and every contractor and supplier on the project will as well.

Another point of pride is our commitment to local and First Nation engagement, while still creating an even playing field for all companies. We are committed to creating opportunities for businesses of all sizes and our procurement process will be open and transparent.

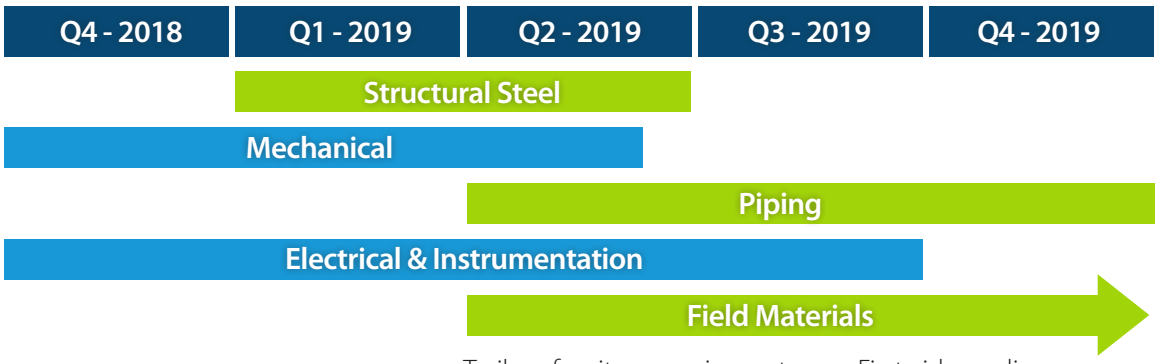

So check out our website for the resources and information you will need to assist you in taking part in contracting opportunities on the project.
